THE CASCADE LOOKOUT

Welcome to the Cascade Lookout newspaper, and the Okanogan-Wenatchee National Forest.

The forest encompasses more than 4-million acres in Washington state and stretches north to south from the Canadian border to the Goat Rocks Wilderness, a distance of about 180 miles. The forest lies east of the Cascade Crest, which defines its western boundary. The eastern edge of the forest extends into the Okanogan highlands, then south along the Okanogan and Columbia Rivers, and then to the Yakima River valley.

Because of this wide geographic range, the forest is very diverse – from the high, glaciated alpine peaks along the Cascade Crest and the numerous mountain ranges extending eastward from the crest, through deep, lush valleys of old growth forest to the dry and rugged shrub-steppe country at its eastern edge. Elevations range from below 1,000 feet to over 9,000 feet. Precipitation varies widely – from more than 70 inches along the crest to less than 10 inches at its eastern edge.

The Okanogan-Wenatchee National Forest is most noted for a wide range of recreation opportunities and many are listed in this paper. Check out the beautiful photos, maps, lists of campgrounds and trails, and other outdoor recreation information.

FOREST INFORMATION

WHAT RECREATION PASSES DO I NEED?

Northwest Forest Passes

There are two types of passes that can be used at fee sites on the forest. They are required at some trailheads, picnic sites and boat launches.

Northwest Forest Pass

America the Beautiful National Parks and Federal Recreational Lands Pass

YES The Northwest Forest Pass is valid at all Forest Service operated recreation sites in Washington and Oregon where a day use fee is required. The annual pass is \$30 and day passes are \$5. This pass allows the holder and any accompanying passengers in a private vehicle use of the recreation facilities.

YES The America the Beautiful National Parks and Federal Recreational Lands Pass has five options ranging from \$80 to free. The added benefit of the America the Beautiful pass is that it can be used on public lands across the nation managed by the US Forest Service, National Park Service, US Fish and Wildlife Service, Bureau of Land Management, and Bureau of Reclamation.

For a complete list of recreation sites where a day use fee is required visit: www.fs.usda.gov/goto/okawen/passes or call your local ranger station.

NO By the way, don't get these two passes confused with the Washington State Department of Natural Resources **Discover Pass**. Discover Passes are not valid on National Forest lands. Also, Washington State's Sno-Park permits are required for everyone parking at a sno-park from about November 1 through April 30.

Interagency Passes

DISPERSED CAMPING

Many people enjoy the solitude and primitive experience of camping away from developed campgrounds. Dispersed camping means there are no toilets, tables or drinking water. Follow these guidelines to ensure that these areas can be enjoyed by future generations.

- Choose sites that are already established. Protect water quality and aquatic habitat by camping at least 200 feet away from water sources.
- Don't dig ditches around tents or trailers.
- Pack out all garbage.
- Do not carve, chop or nail into tree trunks – this can eventually kill the tree.
- Soap degrades water quality and harms aquatic life. Wash at least 200 feet from water sources; use biodegradable soap.
- Find a spot at least 200 feet from any water source and dig a hole 6-8 inches deep to bury human waste.

CAMPFIRES

When building a campfire, please follow these simple steps:

- Keep campfires small and use wood collected or purchased locally. If collecting firewood near your camp, use only dead and down wood.
- Contact the local Ranger Station for current fire restrictions.
- Use existing fire rings and have a shovel, axe and bucket of water nearby before lighting a campfire.
- To put out a campfire, slowly pour water onto the fire and stir with a shovel. Continue adding and stirring until all material is cool to the touch.
- Do not bury your fire. The coals can smolder and re-ignite.
- NEVER leave a fire unattended, even if there are no flames present.

RECREATING RESPONSIBLY

In most cases, wildlife viewing is a safe activity when people follow these general precautions:

Keep Your Campsite Clean

Do not leave food, garbage, coolers or cooking equipment out in the open.

Do Not Feed Wildlife

Animals that get food from people may become aggressive and expect food from all humans they encounter. They can become a nuisance and may need to be destroyed to protect people.

Do Not Approach Wildlife

View and photograph them from a distance as this minimizes stress to animals and provides a safe distance between you and them. If an animal approaches, it is best to move away and maintain a safe distance.

Leave pets at home

Pets may attract bears and cougars. If your pet accompanies you, be sure to keep it on a leash.

Keep children within sight

You don't know what critter might be around the next bend in the trail.

Watch for baby animals and leave them alone

Cute babies mean protective parents.

Report unusual wildlife

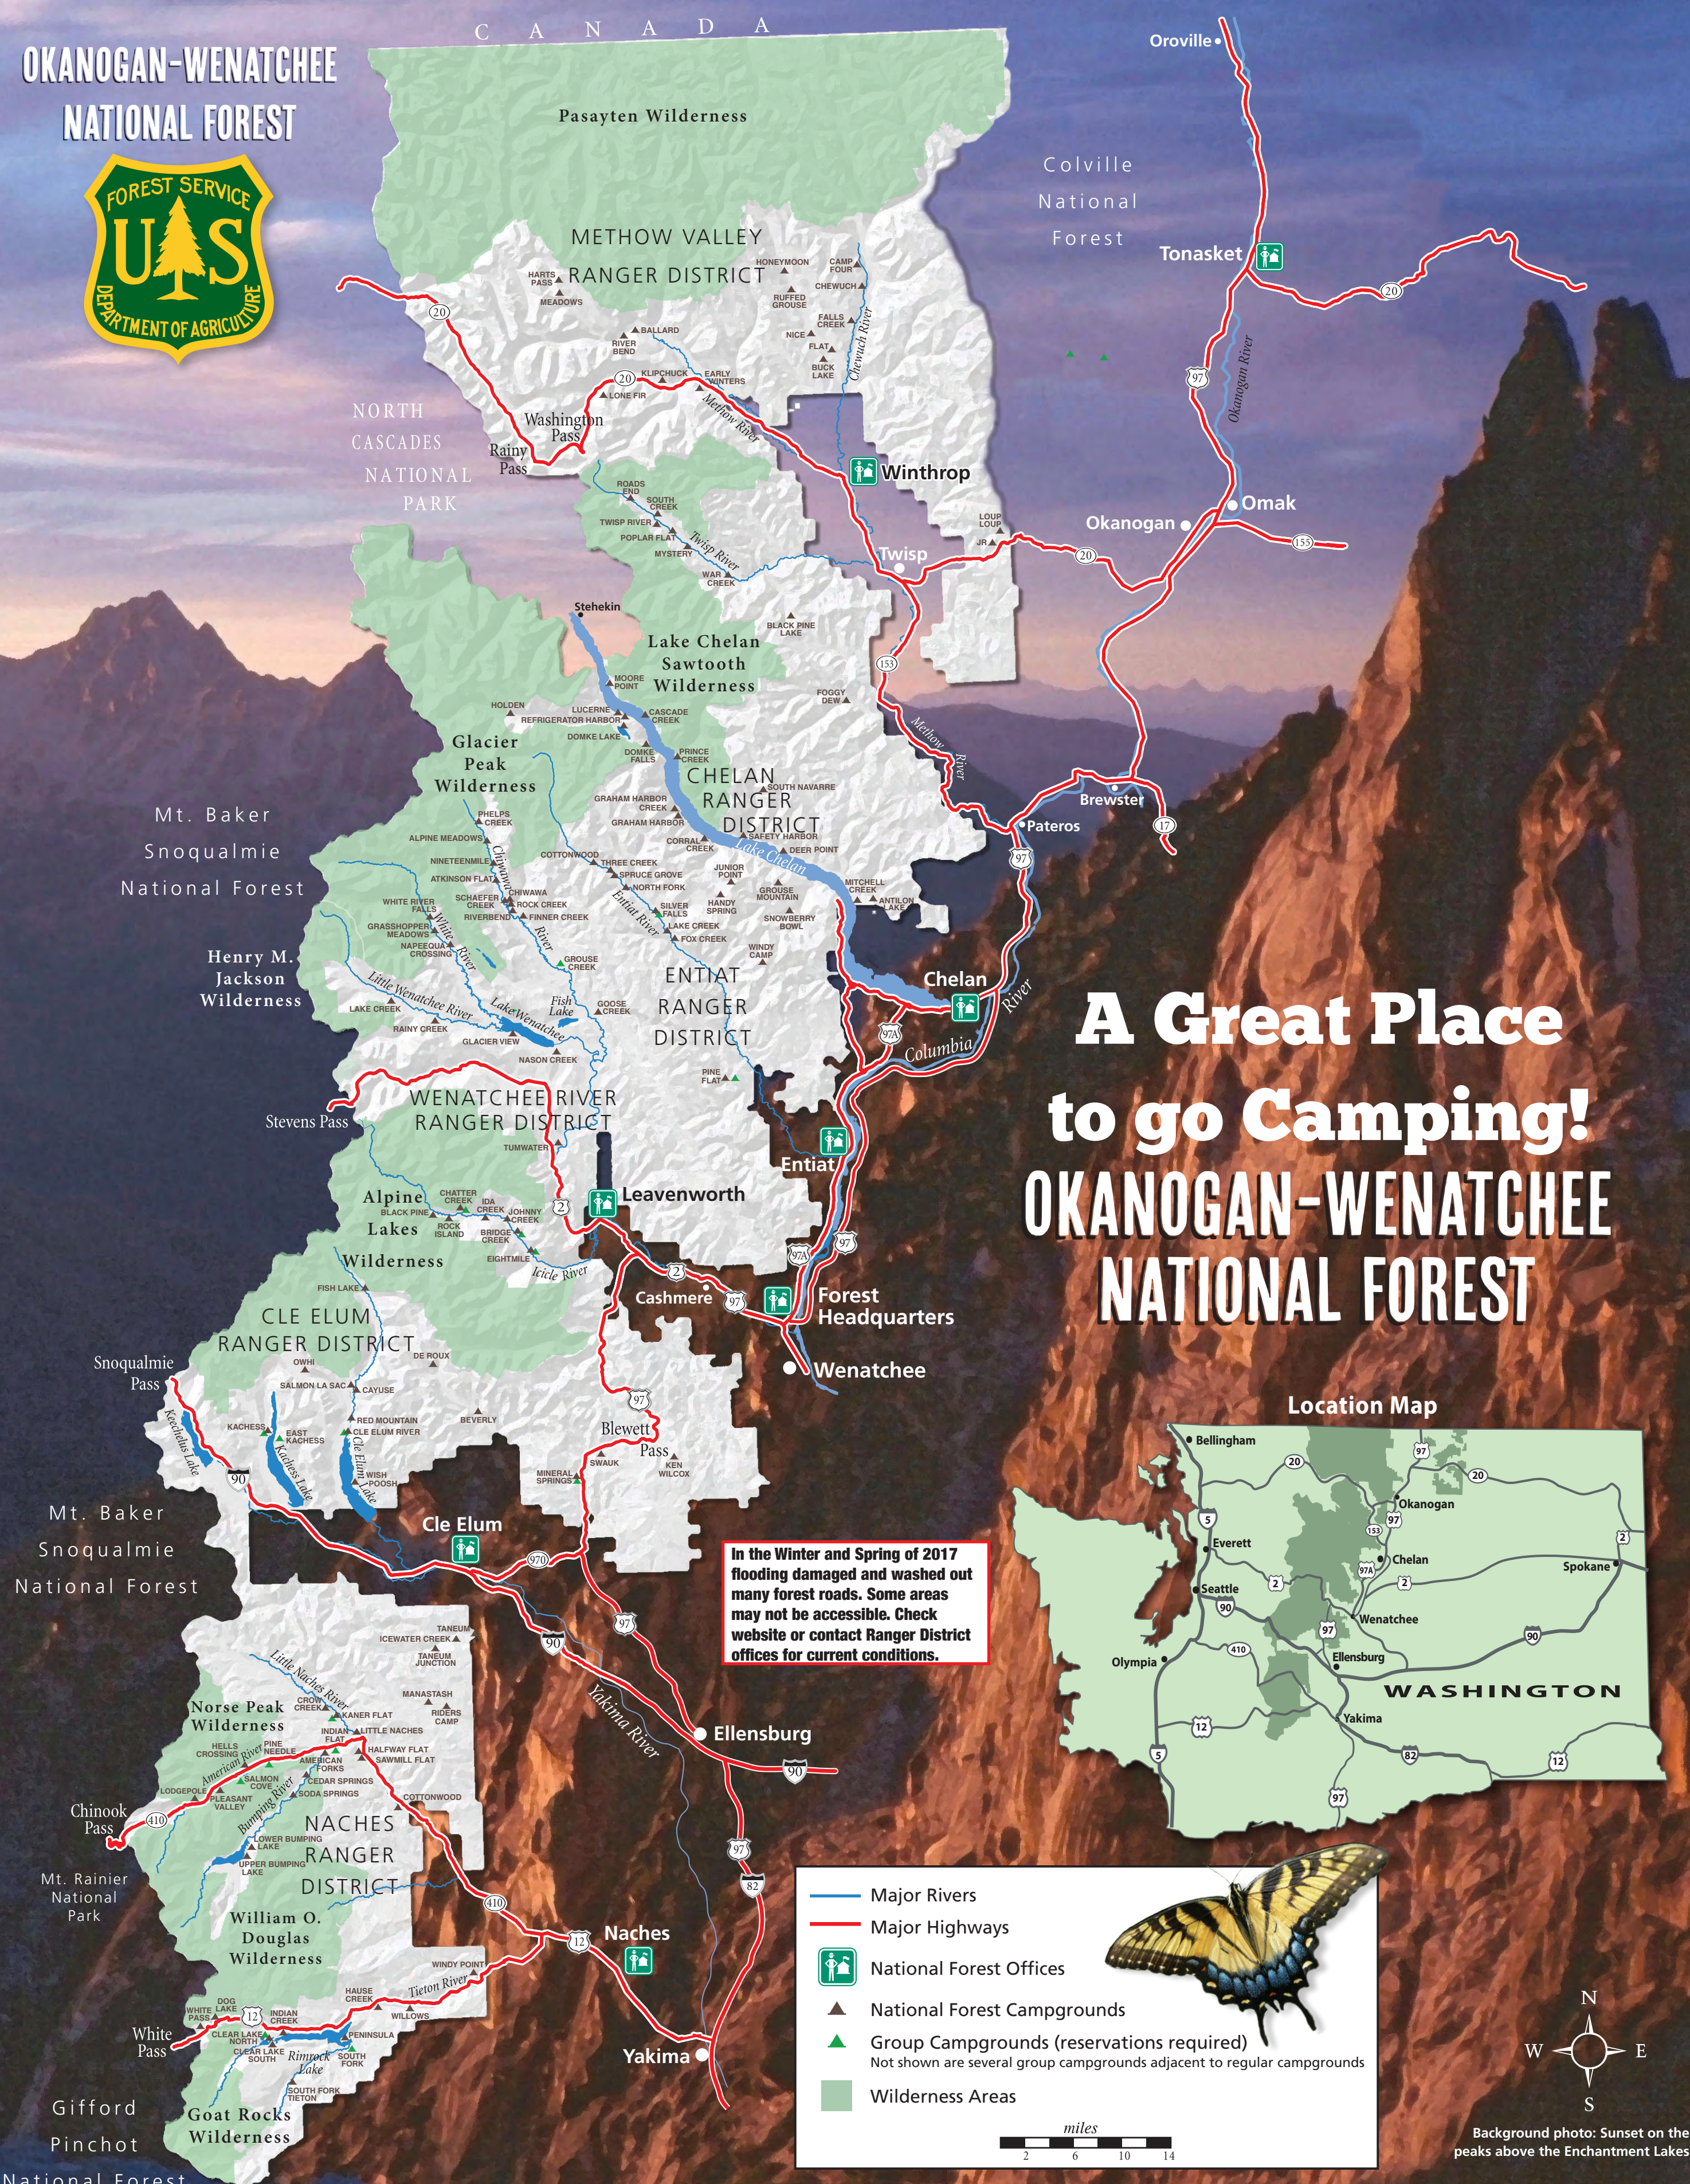

encounters to National Forest or State Department of Fish & Wildlife offices.

ICICLE CANYON

KNOW BEFORE YOU GO

CAN I TAKE MY DOG HIKING WITH ME?

In most areas yes, but not in the Enchantments permit area of the Alpine Lakes Wilderness. When recreating with pets in the national forest, they must be under control at all times.

CAN I BRING FIREWORKS TO THE FOREST?

No, it is illegal to use or possess fireworks on state or federally protected lands.

DO I NEED A CAMPFIRE PERMIT?

No.

DO I HAVE TO HAVE A PERMIT TO COLLECT WOOD FOR MY CAMPFIRE?

No, you can gather wood for your campsite but you have to leave any leftover wood in the forest or at the campsite.

CAN I GO TARGET PRACTICING IN THE FOREST?

Yes, but you need to contact the local ranger district office for rules and regulations.

IS MARIJUANA LEGAL?

Federal law prohibits the possession of marijuana on National Forests, and Washington State law prohibits the display or use of marijuana in any public area.

HOW LONG CAN I STAY IN THE NATIONAL FOREST?

There is a 14-day stay limit per site. Camping or occupying a site or area within a 5-mile radius by the same person or group may not occur again for a period of 14 consecutive days thereafter.

CAN I GEOCACHE IN THE FOREST?

Yes, geocaching, or finding hidden items using handheld GPS units, is allowed as long as the activity remains non-ground/resource disturbing and non-commercial (no charges to participants). It is illegal to geocache in wilderness areas.

WHAT PERMITS DO I NEED TO ENTER WILDERNESS AREAS?

See below
